I. Introduction

The General Assembly passed a total of nine bills amending the Virginia Freedom of Information Act (FOIA) during the 2018 Session. Five bills passed the General Assembly that were recommended by the FOIA Council: HB 905, which addresses what information shall be designated as trade secrets or proprietary information and therefore excluded from being open to public inspection under the Virginia Public Procurement Act; HB 906, which clarifies the definition of electronic communication; HB 907, which consolidates existing provisions concerning public meetings conducted by electronic means; HB 908, which removes the requirement that the remote locations from which members of a public body participate in meetings through electronic communication means be open to the public and requires instead that members of the public be provided with an electronic communication means substantially equivalent to that provided to members of the public body; and HB 909, which clarifies that the discretionary exemptions contained in FOIA pertaining to law-enforcement and criminal records may be used by any public body.

Eight bills clarify two existing records exemptions and add five new records exemptions in FOIA as follows:

- Clarifies the exclusion from mandatory disclosure under the Virginia Freedom of Information Act (FOIA) of information that would disclose the security aspects of a system safety program plan adopted pursuant to Federal Transit Administration regulations governing the Commonwealth's designated Rail Fixed Guideway Systems Safety Oversight agency. Current law excludes information that would disclose the security aspects of such system safety program plan by providing a specific citation to the Code of Federal Regulations. HB 727 clarifying the exemption in § 2.2-3705.2.

- Clarifies that the discretionary exemptions contained in the Freedom of Information Act pertaining to law-enforcement and criminal records may be used by any public body. Current law permits such exemptions to be used only by public bodies engaged in criminal law-enforcement activities. The bill also restricts the application of the discretionary exemption for those portions of noncriminal incident or other noncriminal investigative reports or materials that contain identifying information of a personal, medical, or financial nature, the release of which would jeopardize the safety or privacy of any person, to only those portions of noncriminal incident or other noncriminal investigative reports or materials that are in the possession of public bodies (i) engaged in emergency medical services, (ii) engaged in fire protection services, (iii) engaged in criminal law-enforcement activities, or (iv) engaged in processing calls for service or other communications to an emergency 911 system or any other equivalent reporting system. HB 909 clarifying the exemption in § 2.2-3706.
• Excludes from the mandatory disclosure provisions of FOIA trade secrets, as defined in the Uniform Trade Secrets Act (§ 59.1-336 et seq.), supplied to the Department of Transportation as part of an audit, a special investigation, or any study requested by the Department of Transportation. The bill provides that in order for such trade secrets to be excluded, the submitting party shall (i) invoke this exclusion upon submission of the data or materials for which protection from disclosure is sought, (ii) identify the data or materials for which protection is sought, and (iii) state the reasons why protection is necessary. HB 1275 adding an exemption in § 2.2-3705.6.

• Excludes from the mandatory disclosure provisions of the Virginia Freedom of Information Act certain information held by the board of visitors of The College of William and Mary in Virginia (the board) relating to the acquisition, holding, or disposition of a security or other ownership interest in an entity, where such security or ownership interest is not traded on a governmentally regulated securities exchange, if disclosure of such information would reveal confidential analyses prepared for the board and have an adverse effect on the value of the investment to be acquired, held, or disposed of by the board. HB 1426 and SB 858 adding an exemption in § 2.2-3705.7.

• Authorizes any county or city, or any combination of counties, cities, or counties and cities, to establish a local or regional overdose fatality review team for the purpose of (i) conducting contemporaneous reviews of local overdose deaths, (ii) promoting cooperation and coordination among agencies involved in investigations of overdose deaths or in providing services to surviving family members, (iii) developing an understanding of the causes and incidence of overdose deaths in the locality, (iv) developing plans for and recommending changes within the agencies represented on the local team to prevent overdose deaths, and (v) advising the Department of Health and other relevant state agencies on changes to law, policy, or practice to prevent overdose deaths. The bill authorizes a local or regional team to review the death of any person who resides in the Commonwealth and whose death was or is suspected to be due to overdose. A violation of the confidentiality of the review process is punishable as a Class 3 misdemeanor. SB 399 adding an exemption in § 2.2-3705.5.

• Prohibits the custodian of a scholastic record from releasing the address, phone number, or email address of a student in response to a FOIA request without first obtaining the written consent of either the student or the student's parent or legal guardian. SB 512 adding an exemption in § 2.2-3705.4.

• Excludes from mandatory disclosure under the Virginia Freedom of Information Act information held by the Virginia Commercial Space Flight Authority that is categorized as classified or sensitive but unclassified, including national security, defense, and foreign policy information, provided that such information is exempt under the federal Freedom of Information Act (5 U.S.C. § 552). SB 657 adding an exemption in § 2.2-3705.2.

One bill adds one new meetings exemption in FOIA as follows:
• Authorizes any county or city, or any combination of counties, cities, or counties and cities, to establish a local or regional overdose fatality review team for the purpose of (i) conducting contemporaneous reviews of local overdose deaths, (ii) promoting cooperation and coordination among agencies involved in investigations of overdose deaths or in providing services to surviving family members, (iii) developing an understanding of the causes and incidence of overdose deaths in the locality, (iv) developing plans for and recommending changes within the agencies represented on the local team to prevent overdose deaths, and (v) advising the Department of Health and other relevant state agencies on changes to law, policy, or practice to prevent overdose deaths. The bill authorizes a local or regional team to review the death of any person who resides in the Commonwealth and whose death was or is suspected to be due to overdose. A violation of the confidentiality of the review process is punishable as a Class 3 misdemeanor. SB 399 adding an exemption in § 2.2-3711.

Five bills amend existing provisions of FOIA as follows:

• Provides that a clerk of court or the Executive Secretary of the Supreme Court shall make nonconfidential court records or reports of aggregated, nonconfidential case data available to the public upon request. The bill specifies that such records or reports shall be provided no later than 30 days after the request. The bill further provides that the clerk may charge a fee for responding to such request that shall not exceed the actual cost incurred in accessing, duplicating, reviewing, supplying, or searching for the requested records. Finally, the bill requires the Executive Secretary of the Supreme Court to make available to the public an online case information system of nonconfidential information for criminal cases by July 1, 2019. HB 780 and SB 564 amending § 2.2-3703.

• Clarifies the definition of electronic communication in the Virginia Freedom of Information Act by amending it to mean the use of technology having electrical, digital, magnetic, wireless, optical, electromagnetic, or similar capabilities to transmit or receive information. HB 906 amending § 2.2-3701.

• Consolidates existing provisions concerning public meetings conducted by electronic communication means. HB 907 amending §§ 2.2-3701, 2.2-3707, 2.2-3707.01, 2.2-3714, and 30-179; adding § 2.2-3708.2; and repealing §§ 2.2-3708 and 2.2-3708.1.

• Removes the Freedom of Information Act requirement that the remote locations from which members of a public body participate in meetings through electronic communication means be open to the public. Instead, members of the public must be provided an electronic communication means substantially equivalent to that provided to members of the public body through which the public may witness the meeting. The bill provides that public access to remote locations from which members of the public body participate through electronic communication means shall be encouraged but not required; however, if three or more members are gathered at the same remote location, such remote location must be open to the public. The bill also amends the annual reporting requirements for public bodies that meet by electronic communication means. HB 908 amending §§ 2.2-3708, 2.2-3708.1, and 30-179.
