COMMENT\_I felt the meeting was run perfectly and thought it was very orderly. I the 1<sup>st</sup> part, the information session was easy to follow and well explained. Participants had the opportunity to ask questions. The comment potion was extremely efficient and well run. I believe the hearing worked better than an in person hearing. Every one who wanted to give testimony could, there was no disruptions or interruptions. I would recommend all hearings use this format. The only problem I had was I couldn't tell if my hand was raised, the interface on WebEx wasn't clear regarding raising your hand.
