FOIA Council,

Thank you for your service on the FOIA Council. As a representative, effective public policy. As a member of the public, I benefit from a government that reflects my community and includes a diversity of voices and experiences.

During this pandemic, we have learned the opportunities that electronic meetings bring. I support increasing flexibility for electronic meetings outside of an emergency as this can make participation in such meetings more accessible for members of the public like me, as well.

I encourage you to vote this year to remove any state-level limit for how often a member may participate electronically. Please also study in 2021 how there can be further increased flexibility for meeting electronically even when there is not an emergency.

Thank you.
