If available from other sources, however, such information and records shall not be immune from subpoena, subpoena duces tecum, discovery or introduction into evidence when obtained through such other sources solely because the information and records were presented to the team during a fatality review. No person who participated in the review nor any member of the team shall be required to make any statement as to what transpired during the review or what information was collected during the review. Upon the conclusion of the fatality review, all information and records concerning the victim and the family shall be returned to the originating agency or destroyed. However, the findings of the team may be disclosed or published in statistical or other form which shall not identify individuals. The portions of meetings in which individual cases are discussed by the team shall be closed pursuant to subdivision A-24.22 of § 2.2-3711. Records of the Health Practitioners' Monitoring Program, to the extent such records identify individual practitioners in the program, shall be privileged and confidential, and shall not be disclosed consistent with the Virginia Freedom of Information Act (§ 2.2-3700 et seq.). Such records shall be used only in the exercise of the proper functions as set forth in this chapter and shall not be public records nor shall such records be subject to court order, except as provided in subdivision C 4 below, or be subject to discovery or introduction as evidence in any civil, criminal, or administrative proceedings except those conducted by a health regulatory board.

C. Notwithstanding the provisions of subsection B above and of subdivision 11 of § 2.2-3705.5, the Committee may disclose such records relative to an impaired practitioner only:

1. When disclosure of the information is essential to the monitoring needs of the impaired practitioner;

2. When release of the information has been authorized in writing by the impaired practitioner;

3. To a health regulatory board within the Department of Health Professions; or

4. When an order by a court of competent jurisdiction has been granted, upon a showing of good cause therefor, including the need to avert a substantial risk of death or serious bodily harm. In assessing good cause, the court shall weigh the public interest and the need for disclosure against the injury to the patient, to the physician-patient relationship, and to the treatment services. Upon the granting of such order, the court, in determining the extent to which any disclosure of all or any part of any record is necessary, shall impose appropriate protections against unauthorized disclosures.

D. Pursuant to subdivision A of § 2.2-3711, the proceedings of the Committee which in any way pertain or refer to a specific practitioner who may be, or who is actually, impaired and who may be or is, by reason of such impairment, subject to disciplinary action by the relevant board shall be excluded from the requirements of the Freedom of Information Act (§ 2.2-3700 et seq.) and may be closed. Such proceedings shall be privileged and confidential.

E. The members of the Committee shall be immune from liability resulting from the exercise of the powers and duties of the Committee as provided in § 8.01-581.13.
