WE NEED YOUR HELP--Please give us your feedback regarding how meetings using electronic communications technology compare to traditional meetings where everyone is present in the same room at the same time.

1. Name of the public body holding the meeting: DEQ and State Water Control Board

2. Date of the meeting: April 2021

3. What are your overall thoughts or comments about this meeting? Insulted and limited in time to speak and staff not understanding what damage by Mountain Valley Pipeline has been done and how much time it takes to get DEQ to stop the irreparable damage to the soils. So sad, and then no one on staff knows a thing about soils - so uninformed. If Board can’t spend time learning about problems and how to solve them, they need to get off the Board. Impression, mostly frustration and disgust that the damage is being allowed in Spread G right now so what good is my even telling you? Stop the damn work. Stop the MVP construction. You are allowing our soils to be killed. The Spread G Upland Exclusion Zone, work needs to stop. Today. Stop Work.

4. Where did you attend this meeting -- main meeting location OR from a remote location? (circle one) phone

5. Technology used for the meeting (audio only or audio/visual, devices and/or software used--please be as specific as possible--for example, speakerphone, iPad, Skype, WebEx, Telepresence, etc.):

6. Were you able to hear everyone who spoke at the meeting (members of the body and members of the public)?
